

Summary

Full-Stack Developer with hands-on experience in web development, networking, and system administration. Skilled in building clean, responsive applications while understanding backend infrastructure, and network fundamentals.

Education

Lebanese International University, Saida, Lebanon

Oct 2022 - Jun 2025

Bachelor of Science in Computer Science: Data Structures and Algorithms, Software Engineering, Networks, AI, Machine Learning, NLP and System and Network Administration.

Professional Experience

Full Stack Developer - Digital Hub UNRWA, South Lebanon, Lebanon

Jan 2026 – Jun 2026

- Built scalable frontend applications using React and Vue.
- Designed and implemented RESTful APIs using Express.js, NestJS, and Python frameworks (FastAPI and DRF).
- Applied authentication & authorization strategies (JWT, password hashing, RBAC).
- Modeled relational and NoSQL databases with proper data normalization and best practices.
- Implemented SSR, CSR, and SSG patterns using Next.js.
- Followed SOLID principles and clean architecture concepts.
- Integrated AI-powered features into web applications using pre-trained models and external AI APIs.
- Worked within Agile environments using sprint planning, stand-ups, and iterative delivery.

Full Stack Developer - Octa Solutions, Saida, Lebanon

Oct 2025 - Jan 2026

- Implemented responsive UI using HTML, CSS, JavaScript, Typescript, and React.
- Created three JavaScript games Applying DOM manipulation and event handling concepts.
- Developed backend features with Laravel (MVC, routing, controllers) and CRUD databases.
- Integrated front-end with APIs, collaborated with designers, testing & debugging.

Project Experience

The Digital Hub Website ([link](#))

- Developed a full-stack MERN application with a responsive React frontend and RESTful APIs, delivering a scalable and high-performance platform for industrial and trading operations.

Al-Bekai Group website ([link](#))

- Built a responsive corporate website and implementing interactive UI components and ensured cross-browser compatibility.

Multi-Vendor E-Commerce Marketplace ([GitHub](#))

- Built a full-stack multi-vendor e-commerce platform using Laravel and React.js, featuring Stripe payments, real-time WebSocket updates, role-based access control, and complete order and product catalog management.

Technical Skills

Programming languages: JavaScript (ES6+), TypeScript, PHP, Python.

Frontend Development: HTML, CSS, React, Vue.js, Next.js.

Backend Development: Node.js (Express.js, NestJS), Laravel, Flask, Django, FastAPI.

Tools: MySQL, MongoDB, Git & GitHub, JWT Authentication, Role-Based Access Control, Jira, CI/CD & Deployment (Vercel, Render ...), Agile Methodologies (Scrum, Sprint Planning, Task Management)

Soft Skills: Strong problem-solving, Teamwork, Communication Skills, Fast Learning Skills.

Languages: Arabic (Native), English (Fluent)
